

## Hylant Employee Benefits | Practice Success

# TECHNOLOGY CONSULTING SERVICES

We believe the largest investment you make as an employer is in your people, therefore the tools you use to engage them will be pivotal to their future success. With so many available systems, it is critical to find the best technology solution that aligns with your company's goals and strategies. Hylant provides you with an objective, agnostic perspective, and support through every step of the process.

### CONSULTING SERVICES INCLUDES:

- Market education
- Solution provider evaluation and selection
- Technology GAP and ROI analysis
- Solution implementation management
- Support change management in your organization

### CLIENTS WHO BENEFIT

*Organizations that:*

- Have employees!
- Are not seeing the value from their current HCM platform
- Pride themselves on a high touch culture and desire to improve employee experience
- Are HCM and digital transformation focused

### CLIENT VALUE

Within our process, we uncover your needs and requirements, then analyze the information to help you find your best HCM solution. We implement and help you adjust to the new solution, making sure it is executed to the fullest potential. Lastly, we stay with you after the implementation to assist with any updates and adjustments needed for long-term success.

### COST

Typically this service is part of Hylant's core services and available to clients at no additional cost. In some situations, such as when extra implementation support is needed, additional costs may apply.

### SUCCESS!

*Our technology consulting services help clients gain:*

- Confidence throughout every stage of the process and with the final system selected
- An advocate who is interested in the development and success of their HCM Environment
- Improved employee experience that will increase employee satisfaction as well as engagement
- Unbiased expertise that only comes from years of being behind the scenes in the insure-tech space
- A solution that works and fits you!
