

Ease the burden of claims administration and risk management with Hylant Insights.

Risk Management Made Easy

Preventing, mitigating and managing risks is a challenge for many organizations. On top of that, simply being able to track all of your assets and potential risks and liabilities in an effective way can be a full-time job. Imagine a resource to help you track the information you need - all in one place - helping you understand current risks, develop insight into emerging risks and improve efficiencies.

That's why we offer Hylant Insights, a risk management tool that eases the burden of data management and brings to light risk management opportunities through data analytics.

Enhance Risk Management Efforts

Hylant Insights helps you track data, stay on top of regulatory obligations, solve administrative, safety and legal inefficiencies, and keep your total cost of risk lower, all in a centralized warehouse. With Hylant Insights, you can ease the burdens of risk management, developing metrics around performance and highlighting risks and inefficiencies you should be aware of. And, you can share data that is understandable with key stakeholders: finance, legal, human resources, safety, operations and fleet management, all connecting effectively throughout your business.

DEVELOP METRICS AND ANALYTICS

Data is a powerful tool for mitigating risks. Hylant Insights allows you to collect, reformat and report the data around performance, spotting opportunities that lead to improving results. Keep the complex data simple and gain immediate, actionable insight with Hylant Insights' analytics capabilities.

MANAGE CLAIMS

With Hylant Insights you can view current claims, including claimants, coverage, location and total incurred, as well as take a look at specific policies, locations, contacts and documents.

EVALUATE TRENDS AND IMPROVE PERFORMANCE

Spot trends before they overtake your business. Store all of your information that can pose a risk in one location, regardless of whether you switch carriers.

Effective risk management is a vital component of a successful business. With Hylant Insights, evaluating your business risks and taking steps to minimize future hazards has never been easier.
