

INTERNATIONAL EXPORTER'S PACKAGE SOLUTIONS

Hylant's Exporter's Package solution is offered by insurers that specialize in providing international insurance solutions for small, mid-size and large domestic or multi-national organizations. It provides expert global service through skilled international underwriters and claim professionals. Additional information can be found at www.hylant.com.

International Insurance Coverage for Travel, Sales and Operations Outside the United States

The risks of conducting business abroad are not solely impacting large multi-national corporations. A recent survey of domestic organizations of all types and sizes found that in today's global economy, 75% of all U.S. companies have some degree of foreign risk exposure. Often, the majority of these risks are not covered under your domestic insurance policies.

Does your company:

- Send employees or volunteers to foreign countries for business or temporary assignments?
- Import/export goods or services?
- Have online transactions that cross national boundaries?
- Have foreign licensees distribute your products?
- Attend international events?
- Provide professional service or repair work outside the U.S.?
- Sponsor trips, tours or educational programs overseas?
- Perform work at U.S. military bases overseas?

Hylant has partnered with leading global insurance carriers to offer flexible and effective coverage solutions through a customized **Exporter's Package program**. The offering is designed to provide a single, easy-to-use policy with streamlined coverages and customized terms and conditions at competitive pricing. Hylant's packaged insurance solutions allow your firm to expand globally with confidence.

HYLANT OFFERS:
